

Aviation Safety Management Systems (SMS)

COURSE OVERVIEW

This Aviation SMS Course is a complete SMS package. It includes essential fundamental safety concepts required for SMS, where SMS has evolved from, why it is required and what each component and element mean. Most importantly, the course details how your SMS should work as a system, and not just the sum of individual elements.

It also discusses ICAO input and NAA State Safety Program requirements. There is information on the critical need for safety culture and the Human Factors required to effect this. The course will also include how to implement SMS and what is required to make it compliant. There is a combination of theory, case studies and practical exercises to fully optimise the learning experience.

While the course utilises the ICAO SMS structure as the underlying basis, it is appropriate to students from all jurisdictions, with relevant structures explored and discussed in-course.

This course incorporates latest materials and case studies as well as taking an innovative approach to SMS delivery.

WHO SHOULD ATTEND?

Our Aviation SMS course is designed for people in positions ranging from Accountable Manager through to Safety Officer. It is equally applicable for organisations who are still to implement SMS or those that have mature SMS already in place. It is particularly valuable to organisations with established SMS to crosscheck knowledge and compliance, as well as to enhance the integration of SMS into their business.

COURSE BENEFITS

This program will provide you with a better understanding of aviation safety management systems. The practical skills and qualities required to lead an effective SMS are instilled throughout and applied through various workshops and practical exercises.

COURSE PROGRAM

Southpac's Aviation SMS course contains the following sessions over 5 days, with an optional post-course project to be completed.

- 1
 - History and reason for SMS
 - Safety fundamentals
 - SMS context
- 2
 - ICAO and CASA
 - Safety Culture and Human Factors
 - Building SMS, SMS Components 1-4
- 3
 - Integrated IT solutions in SMS
 - Risk Management Plan
- 4
 - Safety performance monitoring
 - Internal safety investigation
 - Continuous improvement
 - Management of change
- 5
 - Safety leadership, current safety issues
 - Complex safety systems
 - Contemporary safety

RECOGNITION OF TRAINING

Upon successful completion of this course, including the post-course project, participants will receive a statement of attainment including;

- AVIF0026** Implement aviation risk management processes
- AVIF0028** Manage aviation risk
- BSBOPS504** Manage business risk (post-course project)

WHY CHOOSE SOUTHPAC?

Southpac has the reputation for conducting the most practical and up to date aviation auditor, systems and investigator courses in the industry. Southpac have been involved with Quality and Safety Management Systems and their application within the aerospace industry for over twenty years.

We are at the forefront of safety innovation, and we are committed to equipping organisations with the knowledge, skills and tools to be able to create a culture that fosters and develops effective approaches.

FACE-TO-FACE TRAINING

Southpac's globally renowned face-to-face courses are synonymous with thought leadership and workplace relevance. We aim to offer the most up-to-date and industry-specific SMS course, facilitated by highly experienced aviation professionals. Face-to-face delivery of this course includes various workshops and practical group exercises.

LIVE LEARNING VIRTUAL TRAINING

Our LIVE Learning Virtual Classroom offers you the flexibility to log in and learn from anywhere. With real-time participation and interaction, our Virtual courses are highly sought after for being practical and convenient while still providing the most relevant and engaging training in the industry. Virtual delivery of this course includes various highly interactive workshops, group discussions and activities.

CERTIFIED PROVIDER

By taking a course with us, you can rest assured you're getting the highest quality content from a certified provider.
